

New! Microban Anti-Microbial Glove Dispensers!

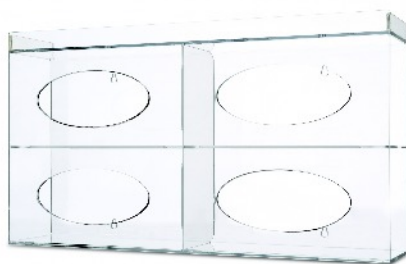

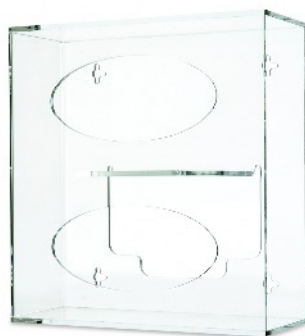

The Bacteria Prevention Everyone Needs. The Dispenser You Can't Be Without.

- High-quality LuciteLux™ acrylic construction with built-in Microban technology
- Prevents replication of microorganisms
- Promotes infection control practices
- Ideal for high-traffic areas
- Each box is independently shelved
- Side accessible cutouts allow quickest and easiest box exchanges
- Not made of natural rubber latex

Constructed with uniquely cast acrylic. Infused with Microban antimicrobial protection to keep each dispenser cleaner. Microban antimicrobial technology immediately works upon contact to disturb the ability of microorganisms to exist, flourish, and multiply. The result is a cleaner surface without the stains, odors, and deterioration often caused by bacteria.

These glove dispensers provide an added level of cleanliness protection you can rely on, all while keeping your glove boxes together, organized, and easily accessible.

Mount to wall with Magnetic Mount!

Available in Single, Double, Triple, Quad and Quad Premium sizes!
