

# New! Uni-Glove Patented Light Handle Cover!

## One Cover fits all Manufacturers Operating Room Light Handles!

- Fits on manufacturer original light system handles Eliminates the need for costly universal light adaptors currently used with light covers.
- An original solution to meet the growing numbers of light systems without available universal adaptors.
- Substantial reduction in time spent identifying, ordering, and installing the light covers with new and existing customers.
- Eliminates costly development and stocking of the ever growing types of universal adaptors.
- Fits on all currently used universal adaptors on the market. Environmentally friendly plastics.

Unique tooth design ensures a perfect fit to all handles
