

**K. PATEL**  
PHYTO EXTRACTIONS

# Extracting with Purpose

Because sustainability should be measurable, not just promised.

**Circular systems. Responsible manufacturing.  
Regenerative growth.**

**100%  
Biomass Reused**

Spent herbs repurposed into clean fuel.

**90%+  
Water Recycled**

Advanced filtration enables continuous water reuse.

**22%  
Lower Energy Consumption**

Cleaner energy systems driving operational efficiency.

**650+ Tonnes of CO<sub>2</sub>  
Avoided**

More carbon than a private jet would  
emit flying London to New York 542  
times

**800+ MWh**

**Clean Energy Generated**

Which is equivalent to every employee in a  
10,000-person company working for a full  
year — powered

**Aligned with UN  
SDGs\***

- SDG 3 → Good Health & Well-Being
- SDG 8 → Decent Work and Economic Growth
- SDG 12 → Responsible Consumption & Production
- SDG 15 → Life on Land

**Towards Net-Zero by  
2050**

Growth needs to be regenerative — not extractive.
